SUMMARY

IT graduate from Mapúa University (Enterprise Database Management) with two internships in SAP/ERP reporting and full-stack web development. Built 10+ Crystal Reports at RCD Land Inc. on SAP Business One, now used as standard billing and finance reports across departments. Co-developed TimeIntern at ARIVA Academy, a time-tracking web app (React, TypeScript, Supabase) with real-time dashboards, QR attendance, role-based access, and automated payroll. Holds Oracle Database Administration and SDLC certifications.

EDUCATION

BS Information Technology 2022 – 2026
Mapúa University · Metro Manila, Philippines | Specialization: Enterprise Database Management
All units completed · Expected Graduation: October 2026

WORK EXPERIENCE

IT Specialist Intern Mar 2026 – Jun 2026
RCD Land Inc. · Metro Manila

- ▶ Built 10+ automated Crystal Reports in SAP Business One, adopted as standard departmental reports for billing, collections, and financial tracking
- ▶ Wrote and optimized SQL queries joining multiple SAP B1 tables to produce consolidated reports, reducing reliance on manual spreadsheets
- ▶ Managed the full report lifecycle: SQL query development, layout design, testing against live data, and handoff to department end-users
- ▶ Improved existing reports by tuning query performance and updating output formats based on department feedback

IT & Software Development Intern Oct 2025 – Jan 2026
ARIVA Academy Philippines, Inc. · Metro Manila · Hybrid

- ▶ Co-developed TimeIntern with a 3-person team, a full-stack intern time-tracking web app built with React 18, TypeScript, Tailwind CSS, Vite, and Supabase (PostgreSQL)
- ▶ Implemented QR-code-based clock-in/out with time-limited dynamic codes, a real-time attendance dashboard (Recharts), automatic salary computation, and CSV payroll exports
- ▶ Set up access control using Supabase Row Level Security with Admin and Intern role views, audit trail logging, input validation via React Hook Form, and session management
- ▶ Designed the PostgreSQL schema and wrote Supabase RPC functions for business logic, Row Level Security policies, and real-time data subscriptions
- ▶ Built reusable UI components with Radix UI and Tailwind CSS for a responsive, mobile-friendly interface

SKILLS

Languages: SQL · Python · TypeScript · JavaScript	Frontend: React · Tailwind CSS · Vite · React Router · Radix UI
Backend: Node.js · Express · Supabase (BaaS)	Databases: PostgreSQL · Oracle Database
ERP & Reporting: SAP Business One · SAP Crystal Reports	Tools & Practices: Git · REST APIs · SDLC · RBAC · RLS
